

Not only staying out overnight, but even eating out...

True Feelings and Pretense

On YouTube, I often see street musicians performing on the streets, both in Japan and overseas.

So I have a few questions prepared...

- ① Are travel expenses and other expenses covered by the individual?
- ② What about concert arrangements and admission fees?
- ③ Are you saving up donations?
- ④ If you have sponsors, who should I contact to get them?

***Piano Club/Saxophone Club**

I'd like to ask the above questions.

Also, I've seen the saxophone club perform on the streets using small speakers.

Do they travel by car?

Do they travel by public transportation?

I'd like to know.

***Violin Club**

There are instructors on YouTube and violinists who appear to be members of the orchestra, so I understand and will not ask the above question.

(Note)

Even if you're the best in the world, what if you have to worry about the fear of receiving a copy of the complaint or a summons for a criminal complaint by registered mail without your knowledge?

I understand that you're probably scared and don't want to get involved.
