

## Pease be startled by my own snoring

Early this morning

I was startled awake for a moment by the loud snoring of my own body

(At the time, I thought it was some old guy snoring really loudly, so I went back to sleep)

When I woke up, I realized it was my own snoring because of the situation

It wasn't like I had an airway obstruction or anything, I was just startled by the loud snoring of my own body

It was an incredible snoring, far beyond the level of a drunk old man sleeping.

(Funny story)

"The day after the company entrance ceremony, the company was registered in the name of a new employee..."

By the way, the "Sexy voice" banner I posted on the website yesterday

I downloaded the parody sound effect "Oh no!" from somewhere and posted it.

There were some pretty gory ones, but those wouldn't be suitable for Hirokun's website, so I couldn't use them.

It took me quite a while to find a free download...

(Reason for posting this banner)

I also had the aim of attracting some people who like that kind of thing...
