

Guidelines for Receiving welfare

① Can manage for 2 weeks on 0 yen

② Can repair all home appliances

③ Can handle all disputes with others, including lawsuits, on my own

④ Has the physical strength to not use air conditioning in Hokkaido (Reason)

It is almost impossible to come up with the funds for retrofitting

Repairing or replacing due to malfunctions is almost impossible, so I need to develop adaptability without relying on air conditioning

⑤ Conversation in English, the world standard language

This is not particularly necessary, however

⑥ You will have to cut off some of your social and acquaintance relationships.

(Reason)

You will have to abandon all the social connections you've had through dining out, etc.

⑦ Understand that you will basically not be able to make phone calls. Using local or store free Wi-Fi is not a problem.

⑥ and ⑦ above → ② and ③ will inevitably occur.

Also, you will naturally have to stop participating in any of the ~~ clubs, etc. that you have been attending.

* Academic qualifications such as Bachelor's, Master's, or Doctorate.

* Multiple qualifications like "Haruko Omae" from "Haken no Hinkaku".

➡ Even if you possess both of the above...

it has absolutely no bearing on receiving welfare benefits.
